

# Richard Effah Yeboah

(614) 290-4260 | [kkras5050@gmail.com](mailto:kkras5050@gmail.com) | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

## Education

---

### Grambling State University

*B.S. in Computer Science (Sophomore) | GPA: 4.0*

Grambling, LA

*Expected May 2028*

**Honors:** President's List; CodePath & IBM Alumnus

**Relevant Coursework:** Data Structures, Algorithms, Software Engineering, Web Development, Database Systems, Cybersecurity, Artificial Intelligence, Discrete Structures

## Projects

---

**Lovely Queen African Market** | *Next.js, TypeScript, Supabase, Vercel, Playwright* | [Live Site](#) | [GitHub](#) Jan 2025 – Present

- Built and shipped production e-commerce platform for 100+ SKUs with catalog, cart, and checkout flows; live at [lovelyqueenafrikanmarket.com](https://lovelyqueenafrikanmarket.com)
- Developed full-stack features in Next.js with Supabase-backed data layer; 150+ commits of iterative product development in *chuck-and-rich*
- Configured CI/CD with GitHub Actions and deployed on Vercel for reliable production releases
- Implemented Playwright end-to-end tests for core flows; iteratively improved checkout UX and order consistency based on owner feedback and live usage

**Item7 Food Truck Ordering System** | *Python, Flask, PostgreSQL, SQLAlchemy, Redis, Stripe, Vercel* | Jan 2025 – Apr 2025

[Live Demo](#) | [GitHub](#)

- Designed relational schemas and RESTful API boundaries for 50+ menu items, carts, and orders; enforced server-side validation across CRUD operations
- Built role-based staff portal (4 roles) with Stripe checkout, stateful error handling, and order-consistency guarantees
- Optimized API performance with Redis caching; deployed serverlessly on Vercel for production access

**QuantaFs — Distributed File System** | *Team Project — Java, gRPC, RocksDB, Raft*

- Co-built a multi-node distributed file system using Raft consensus for leader election and log replication across a team-built cluster
- Contributed Java gRPC microservices and RocksDB persistence layers; implemented concurrency controls for data consistency under load

## Experience

---

### Lovely Queen African Market

Jan 2025 – Present

*Freelance E-Commerce Developer*

*Columbus, OH*

- Sole developer partnering with store ownership on product priorities, UX, and fulfillment for a live grocery retail business (see [Projects](#))

### JPMorgan Chase

Feb 2025

*Data Analyst, Data For Good Hackathon*

*Virtual*

- On a 3-person hackathon team, built a data pipeline using pandas, NumPy, and SQLAlchemy to aggregate 100K+ Title I school records
- Developed a logistic regression classifier with scikit-learn and k-fold cross-validation to identify high-risk underfunded schools
- Built GeoPandas visualizations and zip-code mapping to correlate funding gaps with regional factors and district-level disparities

### New Life International School

Jan 2024 – Dec 2024

*ICT Instructor & Data Administrator*

*Kronum, Kumasi, Ghana*

- Designed and delivered a structured ICT curriculum with hands-on computing labs, measurably improving student proficiency across core software and productivity concepts
- Automated student data validation using advanced Excel functions, reducing administrative processing time by ~35% while maintaining 100% data integrity

## Technical Skills

---

**Languages:** TypeScript, JavaScript, Python, SQL, HTML/CSS

**Frameworks & Libraries:** Next.js, React, Flask, Node.js, Tailwind CSS, REST APIs

**Databases & Tools:** Supabase, PostgreSQL, Redis, Git/GitHub, GitHub Actions, Vercel, Playwright, Stripe

**Concepts:** Full-Stack Development, E-Commerce, CI/CD, Automated Testing, API Design

## Leadership & Activities

---

### Vice President, ACM (GSU Chapter)

Jan 2025 – May 2025

- Personally led technical workshops, interview prep, and resume review sessions that helped grow active membership from 17 → 53
- Planned and coordinated campus hackathons and tech talks with volunteers and industry guests, engaging 100+ participants

**Additional Involvements:** ColorStack (Member); IBM SkillsBuild Scholar (Data Science); African Student Association
